

Cellular & Digital Pathology Services for Private Practices

About Us

Source LDPATH provides premium cellular and digital pathology services to Private Healthcare Practices at industry-leading turnaround times.

Bringing an end-to-end solution from sample collection through to specialist reporting, clinicians can benefit from a comprehensive and tailored partnership to better support patients on their journey to diagnosis.

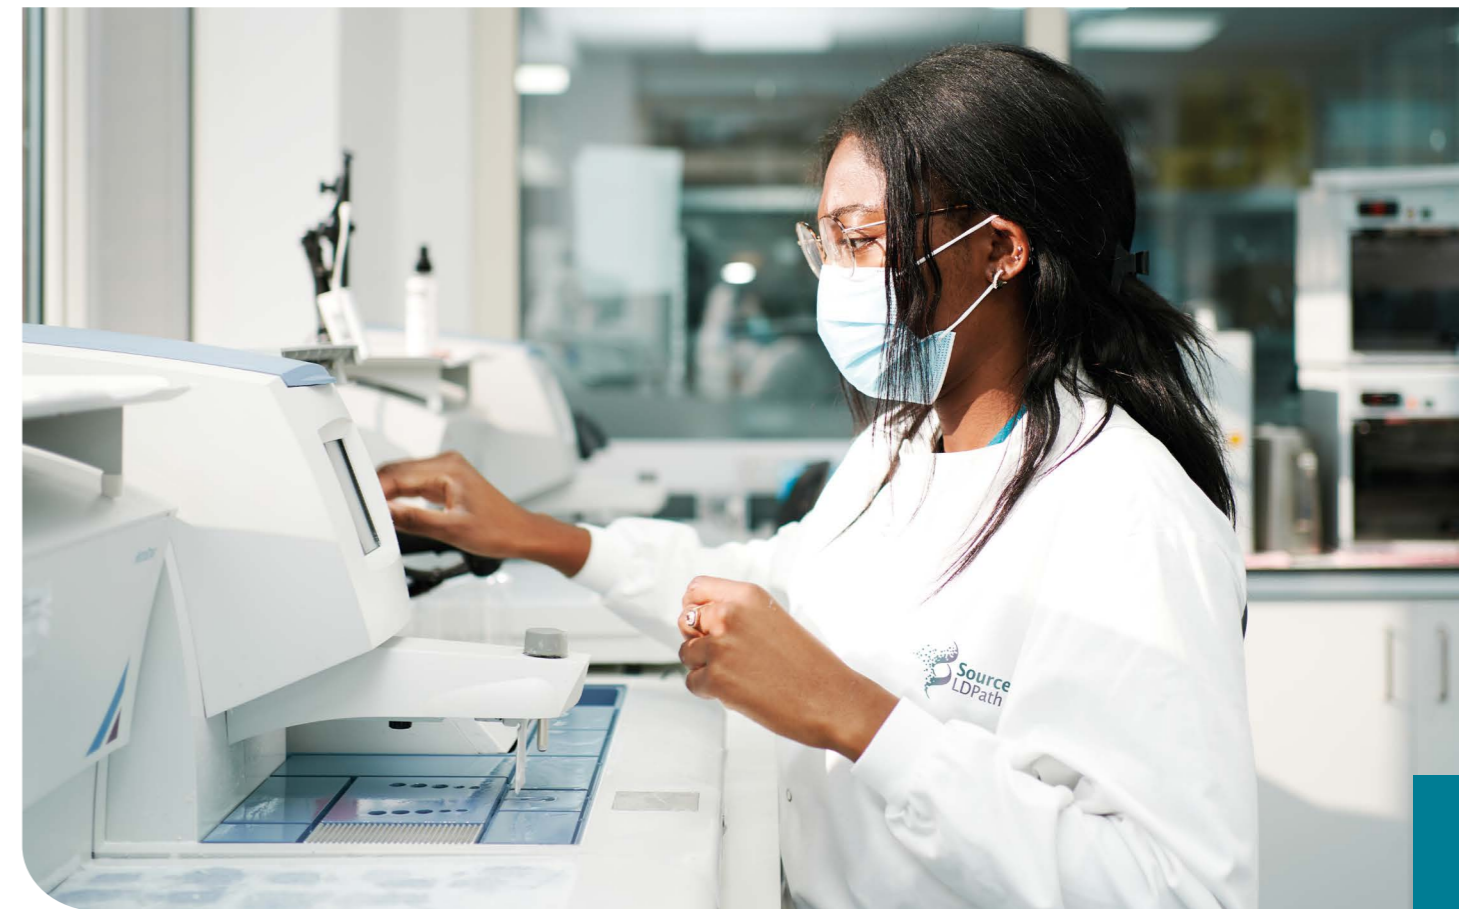

Cellular and Digital Pathology Services

Access a complete, premium cellular and digital pathology service, from sample collection through to reporting.

Our expertise in histopathology and digital technology provides a reliable diagnostic pipeline to enhance patient care, at industry-leading turnaround times of 24-72 hours.

Benefit from Source LDPATH's growing pool of 200 pathologists to cater to all specialities. Manage multi-disciplinary meetings and second opinions from an expert pathologist network as needed. Our clinical team are committed to provide the highest-quality, comprehensive service charged at a flat rate. This includes:

- **Laboratory processing of samples** (including up to seven specimens, per patient, per procedure)
- **Express medical courier collection**
- **Rapid turnaround time**
- **Specialist reporting**
- **Additional histochemistry**
- **Additional immunohistochemistry**
- **Second opinion from our international expert panel**
- **MDM discussion**

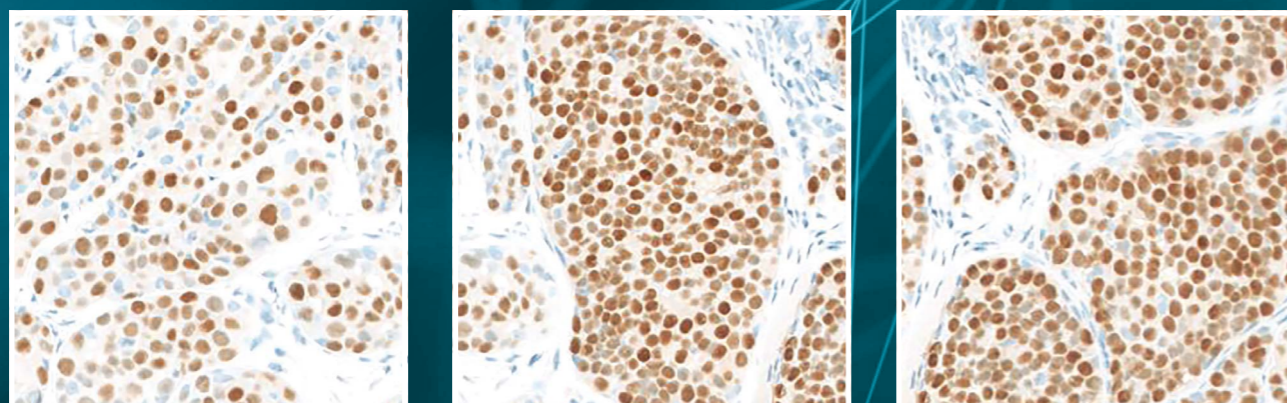

Source LDPATH Urgent Service

Biopsy Today, Diagnosis Tomorrow

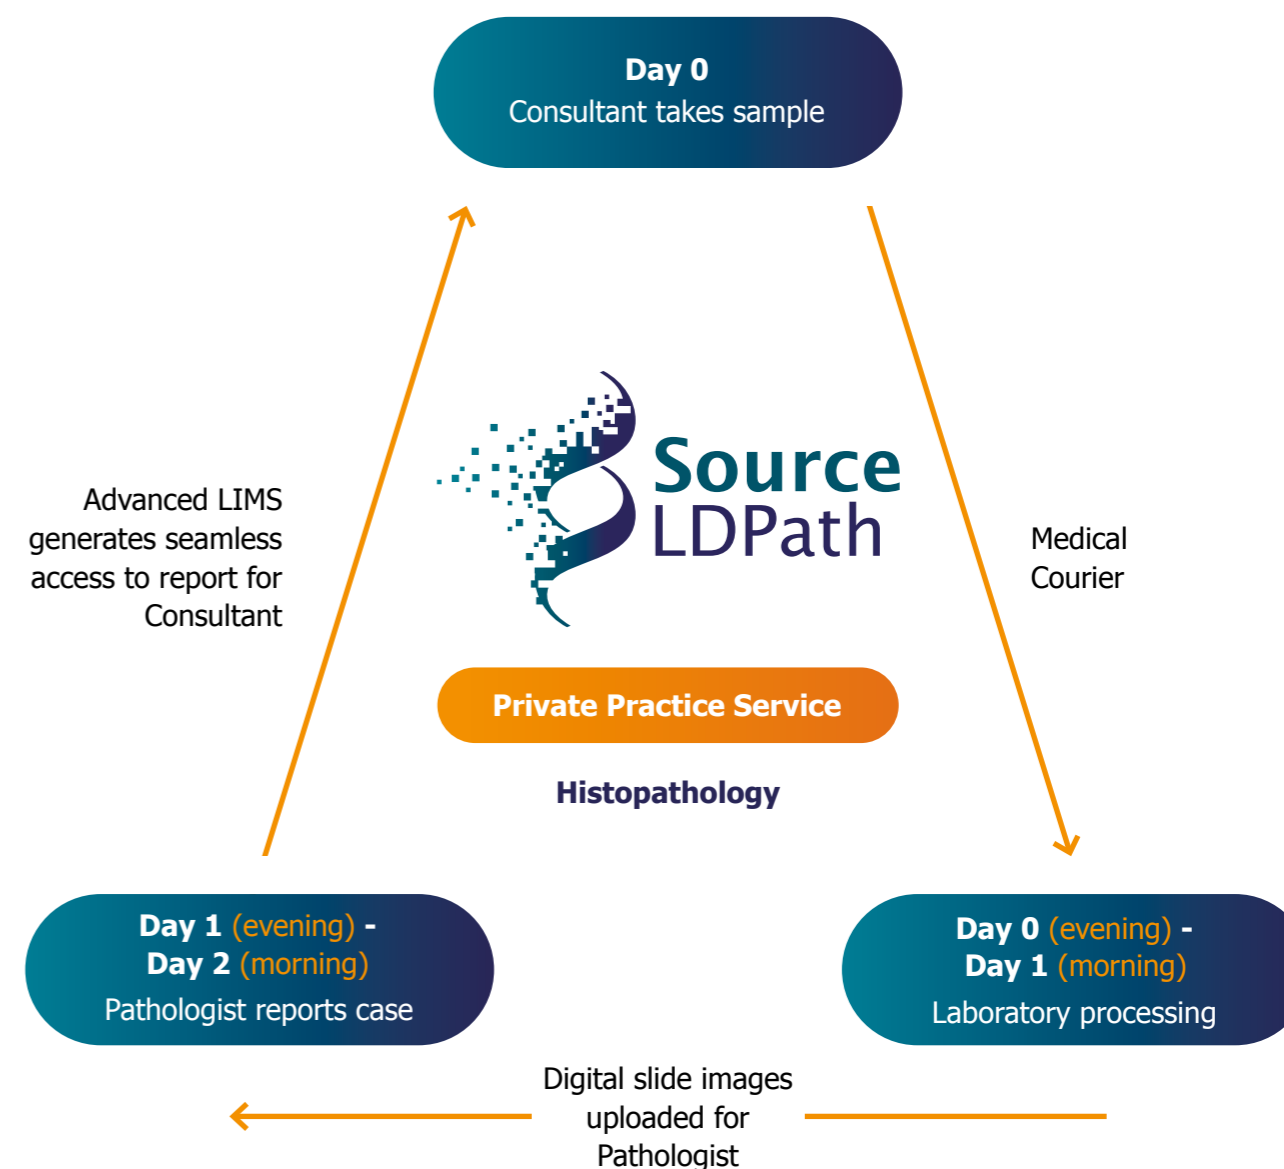

Utilise our priority service for high-risk cases. We aim to deliver urgent cases at an express turnaround time of **24 hours** from sample reception.*

*Providing no additional slides are requested to complete the diagnosis.

Complete Management of your Private Practice

Source LDPATH offers fast, seamless and integrated processing between the clinician and the pathologist.

Our Goals

Delivering comprehensive management, unrivalled service delivery and scalable sample processing and reporting solutions directly to your private practice. Access the best of intuitive technology from the leaders of digital pathology - Source LDPATH increases Clinicians' bandwidth to provide the best level of care to their patients.

Transforming the Delivery of Pathology Services

Unrivalled 24 – 72 hour turnaround time

We prioritise fast turnaround times, delivering results within an unrivalled 24 – 72 hours whilst maintaining premium accuracy. High-risk cases will benefit from our priority service with an aim to deliver results within 24 hours.

Advanced LIMS integration

Easy integration of Source LDPATHS advanced LIMS for clinical staff, consultants and secretaries, built by pathologists, for pathologists. Each user can maximise connectivity by accessing cases and view and download reports from their unique profile. An opt-in system can be enabled for users to receive notifications via e-mail for cases booked in, reported or requiring additional laboratory work.

Medical courier for seamless sample transportation

Our medical courier network ensures the safe and reliable transportation of patient samples directly to our laboratories. This service is included within the flat fee at the time of procedure.

Second opinions from experts

Benefit from our broad network and specialist consultant pathologists for second opinions on complex cases. Our clinical experts provide an extensive evaluation per case to ensure the highest reporting accuracy for patients.

Comprehensive flat fee

Our flat fee per case with up to 7 specimens includes courier, processing, reporting and additional lab work (if requested by pathologist) which covers immunohistochemistry and special stains. If the pathologist decides to seek a second opinion from our panel of pathologists this is also covered within our flat fee.

Patient-focused care is at the heart of our operations

A very quick turnaround time, easy access to reports and, if required, the availability of the pathologist to discuss a case.

A first-class histopathological opinion is provided and second opinions are sought in difficult cases. Close clinic-pathological correlation is available and the reporting pathologists are always available for advice and discussion.

Prof. Malcolm Rustin, Consultant Dermatologist

Specialist Reporting

Reporting every major discipline of surgical pathology, access our team of specialist pathologists to meet the requirements of your department.

A flat fee with no hidden costs at the point of procedure, inclusive of special stains, immunohistochemistry, medical couriers and billing.
